

Placing your Article Orders

You can order a copy of any journal article or published document through the Blank Order Form.

1. Go to <http://www.ieonline.com/cgi-bin/logon/guest>, or login via <http://www.ieonline.com>, and click on Blank Order Form.
2. In the Blank Order Form enter the citation information for your order.
3. If you want to place another order, click Next Article on the bottom left, and enter the information for the new citation.
4. When you are done, be sure to click Done on the bottom right. If you do not click Done, your order(s) will not be processed.
5. The Order List page lists the order(s) you just placed. You can now check your citation(s). If you want to deselect order(s), click on the checkmark(s) to the left of the article title(s). Then, click on Recalculate to the bottom right of the last order. The Order List will refresh without the deselected articles.
6. If you need to receive your order(s) as soon as possible, scroll to Priority of Request in the center of the page, and select Urgent from the pull-down menu.
7. Continue to scroll down the page. If you are a new user, you will need to enter your name and other shipping information.
8. If you wish to save your account information, so you don't have to re-enter it the next time you visit, choose a User ID and password in the Save Shipping Info area.
9. Click on Order Now on the bottom left.
10. The next page lists the article(s) you just ordered and gives you a confirmation number for each order. A confirmation e-mail will also be sent to you - please keep this email until you receive your order.

Tip

- When placing an order, enter as much information as you can. If a field is required, but you don't have the information, enter a double dash (example: --).

- You can also copy and paste a citation into the Blank Order Form if you already have the information in an electronic format.

Tip

- Both User ID and password are case-sensitive.
